The Company is entitled to transact, not only with Fiars, but also with all persons having a limited, but not less than a life interest in lands, and being in actual possession, or receipt of the Rents thereof; and likewise with Trustees, Guardians, &c., of all such persons. The Loans may be applied to any of the following purposes:—

1.—The Drainage of Land.
2.—The Irrigation and Warping of Land.
3.—The Embanking of Land.
4.—The Enclosing and Dividing of Land, and the Making and Straightening of Marches by Walls, Hedges, and Dykes, and by Iron or Wire Fences, or otherwise.
5.—The Improving of Drains, Streams or Watercourses of Land.
6.—The Reclamation of Land.
7.—The Making of Permanent Farm Roads, and Permanent Tramways and Railways.
8.—The Clearing of Land.
9.—The Erection of Farm Houses and other Buildings required for Farm purposes, and the Improvement of, and Additions to, Farm Houses and other Buildings for Farm purposes, already erected, so as such Improvement or Additions be of a permanent nature, TO THE WHOLE EXTENT OF THE EXPENDITURE.
10.—The Planting for Shelter, or for any Beneficial purpose.
11.—The Construction or Erection of any Engine Houses, Water-Wheels, Saw and other Mills, Kilns, Shafts, Wells, Tanks, Reservoirs, Dams, Leads, Pipes, Conduits, Watercourses, Bridges, Weirs, Sluices, &c, for Agricultural purposes.
12.—The Erection of any Engines or Machinery in connection with Improvements in Drainage or Irrigation.
13.—The Construction or Improvement of Jetties or Landing Places on the Sea Coast, or on the Banks of Navigable Rivers or Lakes, for the transport of Cattle, Sheep or other Agricultural Stock and Produce, and of Lime and Manure, and other Articles and Things for Agricultural and Farming purposes.

The Expenses may be added to, and charged along with the outlay. The Loans may be repaid by yearly or half-yearly instalments, during any period not exceeding 25 years. The Rent Charge for a Loan of £300 and upwards, to repay capital and interest in 25 years, is at present £6. 7s. 4d. per cent. per annum. For Loans under £300, the rate is £6. 14s. per cent. per annum.

THE SCOTTISH EQUITABLE is a *Purely Mutual Office*. There are no Shareholders to absorb any portion of the Profits, which are therefore wholly divided among the holders of Participating Policies at intervals of Five Years. Its leading features are—*Unquestionable Security*, *Liberal Conditions of Insurance*, and *Early Participation in Profits*.

SPECIAL NON-FORFEITURE REGULATIONS.

The principle of Non-Forfeiture has been adopted by this Society to its fullest extent, so that when a Policy has acquired a surrender value (generally after payment of three years' premiums), that value will not be forfeited by failure to pay the premium, but, if not paid to the Policyholder in cash, will be applied to keep the policy in force, either temporarily for its full amount until the value is wholly exhausted, or permanently for a reduced amount.

QUINQUENNIAL INVESTIGATION.

At the 57th Annual General Court of the Society, held at Edinburgh on 25th June, 1888, it was reported that the New Business of the last quinquennial period greatly exceeded that of any previous period in the Society's history. The number of policies issued was 6,376, assuring a total sum of £3,657,649, against 4,728 policies for £2,735,615 during the previous quinquennium. A bonus was declared at the increased rate of 28s. per cent per annum on the original sums assured and on the previous additions not surrendered.

The Premiums on Whole Life Policies are calculated by half-years of age, so that those who insure within six months after a birthday will be charged a lower rate of premium.

Most of the Policies after Five Years' endurance are freed from all conditions, except the payment of the Ordinary Premium.

CLAIMS are payable immediately after proof of death and title.

SETTLEMENT POLICIES, with special advantages, are granted under the "Married Women's Policies of Assurance (Scotland) Act, 1880," free from all claims of creditors in the event of subsequent insolvency.

LOANS granted in connection with life insurance, on Life Interests, Reversions, and other approved security. Reversions purchased.

I.—GUARANTEE BRANCH.

BONDS are granted, whereby the Company undertakes to make good loss by reason of the fraud or dishonesty of persons receiving or holding money or securities for money, or entrusted with property of any kind (such as Receivers in Chancery or Bankruptcy, Managers, Secretaries, Bank Agents, Collectors, Clerks, Travellers and Commission Agents).

The BONDS of the Company are accepted by

HER MAJESTY'S GOVERNMENT, THE LOCAL GOVERNMENT BOARD,
THE COURT OF CHANCERY, THE CITY OF LONDON.

and other Municipal Corporations; and by various Banks and Railways, and other large Companies throughout the United Kingdom, India, and Australia.

The rates of Premium vary according to the risk undertaken by the Company. The different kinds of Risks have all been classified, and the Company is therefore in a position to undertake the Best at the Lowest Scale of Premium.

II.—ACCIDENT DEPARTMENT.

This Department is now one widely taken advantage of by all classes of society. Some idea of the substantial character of the benefit obtained by the Public from Accident Assurance may be gathered from the fact that there is paid annually by way of allowance for injuries, exclusive altogether of the amount paid on Death claims, not much less than £100,000 in England alone.

CLASS I. ORDINARY RISKS.—Comprises Professional Men, Officers in the Army or Navy not on Active Service, Commercial Travellers, Buyers for Wholesale Houses, Clerks and Tradesmen.

£1,000 at Death by Accident of any kind.
£1,000 on Permanent Total Disablement.
£500 on Permanent Partial Disablement.
£6 Weekly during Temporary Total Disablement.
£1 10s. Weekly during Temporary Partial Disablement.

For Class I., £4; Class II., £5 per annum. Rates for Classes III. and IV. on application.

The full amount assured is payable in the event of death resulting directly from an accident within three months from the date of its occurrence.

The weekly allowance is payable for a period not exceeding twenty-six weeks in any one year, and is paid in respect of each Accident in one sum.

A weekly allowance, during temporary partial disablement, of one-fourth of the amount allowed during temporary total disablement, can be assured at an additional Annual Premium of 2s. for each £100 assured.

The Company is prepared in all cases to settle a claim for weekly compensation by *one immediate* payment.

III.—EMPLOYERS' LIABILITY DEPARTMENT.

In addition to covering the risk under the Act, 1880, the Company relieves employers of the cost of defending unjust claims.

All information and Forms of Proposal may be obtained at the Head Office or Branches.

EARLY BONUS SCHEME (E.B.)—Ordinary Policies under this scheme are payable *immediately* after proof of death. In three years, subject to regulations, they become *indisputable* on the ground of error or omission, *world wide*, without extra charge, and *not liable to forfeiture*, but only to reduction in case of omission to pay the Premium. At last Division of Profits ordinary Policies under this scheme received a **Bonus Addition of £2 per cent. for each year since they began to rank.**

SPECIAL BONUS SCHEME (D.B.)—Under this scheme Policies are issued at *rates not exceeding, and in many cases falling short of, the non-Profit Rates* of other offices. They share in Profits when the Premiums amount with Interest to the sum assured, besides practically receiving a large Bonus at the outset. At age 30, £1,200 can be assured for the same Premium as would be charged for £1,000 under the usual profit schemes of most offices.

JAMES DUNNACHIE, Managing Director.

THE Glenboig Union Fire-Clay Co. Limited are the sole makers of the "Glenboig" and "Star Glenboig" Brands of Fire-Bricks and Blocks.

These Brands were extensively used for over 20 years by the late Sir William Siemens (formerly Dr. C. W. Siemens), and they were *the only* Scotch Brands recommended by him, as they now are by his brother, Frederick Siemens, Esq.

No other Fire-Brick combines the same degree of Non-Melting and Non-Splitting, and it is this combination of qualities that has given the Glenboig Brands the first place in every Metal Smelting country throughout the world.

The Glenboig Company are by far the largest manufacturers in the United Kingdom of Fire-Bricks and Blocks, Gas Retorts, Glazed Sewerage Pipes, and all other descriptions of Fire-Clay Goods.

Their Works and Appliances are modern and in many respects unique.

The Glenboig Trade Marks and Trade Name have been infringed and imitated by unscrupulous competitors, but as every article made by the Company bears one or other of the registered Trade Marks, buyers can protect themselves by seeing to it, that these Brands are put on the Goods.

The temperature at which the Glenboig Bricks are burned exceeds that of all other Fire-Clays.

FIGURES AND FOUNTAINS.

For upwards of half a century the Garnkirk Fire Clay has been known throughout the world, and the supply of it is still inexhaustible. This Clay differs from that from which other Scotch Fire Clay wares are made, in being comparatively free from iron, the presence of which in quantity is not only dangerous, but wasteful, as owing to its power as a conductor, it causes great radiation of heat.

The Garnkirk Fire Clay differs from these other Scotch Clays also in the extra cost of its manufacture, requiring, as it does for burning, a degree of heat which changes these clays into a black vitreous mass.

The Garnkirk Company have been favoured with the results of a series of comparative trials which had been made by large English consumers, in which the best brands of Fire Bricks of the United Kingdom were tested against the Garnkirk Bricks. In each and all of these trials, the Garnkirk Brick proved the most refractory, and even the highly prized Stourbridge Bricks yielded in each trial to the force of heat applied with five times the rapidity of the Garnkirk Bricks.

The Garnkirk Fire Clay Company manufacture specially for Glass Works where the clay is required to withstand the action of molten glass, and also for other works where the combining power of alkalies has to be withstood.

The GARNKIRK FIRE CLAY COMPANY confidently recommend their Fire Clay Ware as being the best to be had.

LABORATORY OF PUBLIC ANALYST, DUNDEE, 29*th May*, 1888.

I have made a careful examination of a sample of Whisky marked "Old Blended Scotch Whisky," recently known as "GLENISLA BLEND," sent to me by Messrs. JAMES ISLES & CO., Dundee. I am of opinion that the Whisky is of exceptionally high class quality. It is practically free from fusil oil and from sugar and other obscuring matter. When diluted and viewed through a tube, one foot long, the transparency is perfect. It gives every evidence of age and good quality, and I consider it sound in every respect.

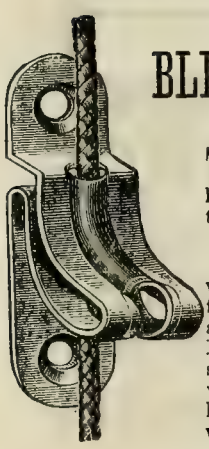
PATENT AUTOMATIC



SHADE AND REFLECTOR HOLDER,

"THE PERFECT."

THIS Holder does not require re-adjustment, as it always maintains the level of the flame, falling gradually as the candle burns away. The slots arrest the conduction of heat, consequently neither the Holder nor the Candle below them becomes heated. The candle maintaining throughout its upright position, there is no overflow of grease, nor risk of the shade taking fire.

The Side Reflector is especially pleasant for persons reading by candle-light, as it cuts off the direct rays from the eyes, and throws them on the book; it is for a like reason very useful in the sick chamber.

PATENT "TENAX"

BLIND FURNITURE.

THE "TENAX" CLUTCH is the simplest and most effectual holder which has been as yet contrived for

ALL KINDS OF LINES

which have to be regulated in length from time to time, but more especially the lines of all varieties of Blinds, both light and heavy. The size of the line is immaterial, providing it pass easily through the holes of the Clutch, it is held firmly, whether it be thicker or thiner.

Patent "Wavelet" PHOTOGRAPHIC BATH.

THIS Bath supplies a want long felt by Photographers. By a very simple arrangement a rocking or oscillating motion can be given by touches of the finger, whereby *wavelets* of the fluid are successively passed over the plate and equality of action secured. The condition of the Plate can be readily examined from time to time by means of the Lever Lifter, which enables the operator to raise and take a firm hold of the plate.

THE DAILY FREE PRESS

HEAD OFFICE—ABERDEEN. LONDON OFFICE—62 LUDGATE HILL, E.C.

THE FREE PRESS was established in 1853, and occupies a leading place among the Journals in Scotland. It is one of the best Daily Morning Newspapers. Its business connection, as regards both circulation and advertising, is equalled in Scotland by only two Journals, published and chiefly circulating in the South and West respectively.

THE FREE PRESS, by its character and circulation, and the position it occupies in the important and extensive region in which it circulates, AFFORDS A PUBLICITY TO THE ANNOUNCEMENTS OF ADVERTISERS SUCH AS CANNOT OTHERWISE BE SECURED.

Terms of Subscription :—6s. 6d. per Quarter; Per Post, 9s. 9d. Bank and Post Office Orders payable to ALEX. MARR, the Publisher, ABERDEEN, N.B.

THE EVENING GAZETTE,

A high-class paper for family reading, containing a complete synopsis of the news of the day, and a LITERARY DEPARTMENT in each issue giving the cream of current literature.

THE GAZETTE has a wide and rapidly increasing circulation, and is a specially good advertising medium through which to reach the INDUSTRIAL and OPERATIVE CLASSES, and for the Class of Advertisements coming under the Cheap Prepaid Scale as LOST OR FOUND; SITUATIONS WANTED OR VACANT; SPECIFIC ARTICLES WANTED OR FOR SALE, &c., &c., &c.

ALEX. MARR, Publisher, "Gazette" Office, ABERDEEN.

THE HERALD AND WEEKLY FREE PRESS

Published every Saturday morning, is a large eight-page sheet of 56 columns, and contains a carefully condensed and complete epitome of the week's news, a high-class serial story, literary notices and selections, and original articles on social, political, and other subjects.

THE HERALD has a great circulation throughout the North-East and North of Scotland, and is extensively used for sending abroad. It is an excellent advertising medium.

Subscription Rate:—6s. 6d. per Annum, payable in advance. Orders payable to ALEX. MARR, Publisher, "HERALD" Office, ABERDEEN.

FORRES, MORAYSHIRE, N.B.

(On Highland Railway, 24 Miles South of Inverness.)

This Home for Invalids and Tourists was specially erected for a Health Resort on the spot selected as the driest and most equable climate in Britain. It stands on one of the beautiful eminences known as the Cluny Hills, which entirely shelter it from the North and East Winds. These Hills are clothed with pine woods and intersected by about five miles of walks.

This is the best centre for visiting the Finest River Scenery in Scotland, and other objects of interest in the neighbourhood. Superior Baths. Excellent Lawn Tennis and other amusements.

Charges in Summer, £2 12s. 6d. per week; in Winter, £2 2s., or for a stay of a month or more, 30s. to 35s.

SELF-ACTING HYDRAULIC RAMS

For Raising Water for the Supply of Towns, Villages, Irrigation, Railway Stations, Mansions, Fountains, Farms, &c.

No Cost for Motive Power, which is obtained from the Stream of Water passing through the Ram.

NO OILING OR PACKING REQUIRED.

MADE IN SIZES TO RAISE FROM 300 TO 500,000 GALLONS PER DAY.
WILL FORCE TO A HEIGHT OF 1,500 FEET.
SPECIAL RAMS for HIGH FALLS to send up to One-third of the Water passing through them.

FIG. A.

This Ram raises a portion of the same water that works it.

This view represents Fig. A. Ram forcing up a part of the same water that works it, which is supplied from a spring. Special Rams of A make can be supplied to force to a height of 800ft.

FIG. B.

This Ram, whilst worked by a stream of impure water, will pump clean water from a well or spring.

TESTIMONIALS FOR JOHN BLAKE'S PATENT SELF-ACTING HYDRAULIC RAMS.

From MATTHIAS SMITH, Esq., Hill Top Hall, Pannal, near Leeds, January 14th, 1889.

"DEAR SIR,—I have great pleasure in bearing testimony to the marvellous efficiency of the Ram you fixed here in January, 1888. It is worked by spring water of irregular volume, the dry weather flow being six pints per minute, with which quantity you promised to work the Ram, forcing through 330 yards of delivery pipe to an elevation of fully 144ft., but out of 5½ pints per minute, 166 gallons per day are sent up, and out of two gallons per minute now flowing through the Ram, 540 gallons per day are delivered at the same height. Considering the extremely small quantity of driving water, I certainly did not expect so grand a result. With every wish that you may get the reward you deserve,—I am, dear Sir, yours faithfully,

"MATTHIAS SMITH."

VILLAGE WATER SUPPLY.

From J. B. McCALLUM, Esq., C.E., Borough and Water Engineer, Blackburn, Nov. 1, 1886. *Guide (Borough of Blackburn) Water Supply.*

"DEAR SIR,—Following is the short report I promised to send as to the work performed by the Hydraulic Rams—supplied by you to the Blackburn Corporation—after they had been in operation sufficient time to take proper observations.

"The district of Guide—population about 500—in the Borough of Blackburn, is situated above the highest reservoir of the Blackburn Waterworks, and had no regular water supply until last July, when the Water Committee caused two of your Patent Hydraulic Rams to be put down and worked by water from a reservoir having a varying but maximum head of 34 feet 3 inches on the Rams—the waste (clean) water gravitating to a lower adjacent reservoir.

"You contracted to supply Rams which would force 8,000 gallons per day each through 1,295 yards of delivery pipe to a service tank 170 feet above the Rams, and I am bound to state that the result has considerably exceeded my expectations, as the rams are capable of pumping, and have pumped much more water than you promised. The percentage of efficiency exceeds all I expected, and is, in my opinion, much more than is usually obtained from Hydraulic Rams.

"From a test I made on September 29th, I found that two Rams with ¼-inch and ⅜-inch strokes respectively, supplied with 194,030 gallons per day, together pumped 26,090 gallons per day to a height of 170 feet, giving 71·43 per cent. of efficiency, and one Ram working at ⅜-inch stroke, and with only 16 feet of working fall, supplied with 154,587 gallons per day, pumped 10,587 gallons per day to the same height, showing 72·75 per cent. of efficiency.

"At a subsequent test on October 11th, one Ram at ⅜-inch stroke, and having 31 feet 9 inches of working fall, supplied with 121,088 gallons per day, pumped 17,583 gallons per day to an elevation of 171½ feet, the efficiency in this case being 79·57 per cent.

"In arriving at these results the greatest care was taken to positively measure the water, besides having a meter check on feed and delivery pipes.

"The work carried out by you at Blackburn is substantial and satisfactory in every way, and if any engineer wishes to make his own observations he is at liberty to come here and do so."

BLAKE'S HYDRAULIC RAMS have been supplied to the following amongst others:—

Dr. J. COLLIS BROWNE'S

CHLORODYNE.

THE ORIGINAL

AND ONLY GENUINE.

CHLORODYNE is a liquid, taken in drops. It invariably relieves *pain* of whatever kind; creates a calm, refreshing sleep; allays irritation of the nervous system when *all other remedies fail;* leaving no bad effects like opium or laudanum; and can be taken when no other medicine can be tolerated. Its value in saving life in infancy is not easily estimated—a few drops will subdue the irritation of Teething, prevent and arrest Convulsions, cure Whooping Cough, Spasms, and Flatus at once.

CHLORODYNE

is the best remedy known for COUGHS, CONSUMPTION, BRONCHITIS, ASTHMA.

effectually checks and arrests those too often fatal diseases known as DIPHTHERIA, FEVER, CROUP, AGUE.

acts like a charm in DIARRHŒA, and is the only specific in CHOLERA and DYSENTERY.

effectually cuts short all attacks of EPILEPSY, HYSTERIA, PALPITATION, and SPASMS.

is the only palliative in NEURALGIA, RHEUMATISM, GOUT, CANCER, TOOTHACHE, MENINGITIS, &c.

The extensive demand for this remedy, known as Dr. J. COLLIS BROWNE'S CHLORODYNE, by the Medical Profession, Hospitals, Dispensaries—Civil, Military, and Naval—and Families, especially guarantees that this statement of its extreme importance and value is a *bonâ fide* one, and worthy of the attention of all.

CAUTION.—Always ask for "Dr. J. Collis Browne's Chlorodyne," and beware of spurious compounds or imitations. Dr. Browne placed the Recipe for making "Chlorodyne" in the hands of Mr. Davenport ONLY; consequently there can be no other Manufacturer. The genuine bears the words, "Dr. J. Collis Browne's Chlorodyne," on the Government Stamp of each bottle.

The following is an extract from the decision of the Vice-Chancellor in the late Chlorodyne Chancery suit—BROWNE & DAVENPORT *v.* FREEMAN :—*Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the statements of the defendant Freeman were deliberately untrue, and he regretted to say that they had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.* —*See* THE TIMES, *July* 13*th*, 1864.

Sold in Bottles at 1s. 1½d., 2s. 9d., and 4s. 6d. Sole Manufacturer,

J. T. DAVENPORT,

33 and 34, GREAT RUSSELL STREET, BLOOMSBURY SQUARE, LONDON.

[MEDICAL TESTIMONIALS OTHER SIDE.

TESTIMONIALS.

Earl Russell has graciously favoured J. T. Davenport with the following:—"Extract of a despatch from Mr. Webb, H.B.M. Consul at Manilla, dated Sept. 17, 1864.

"'The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives.'"

*** Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

Extracts from the GENERAL BOARD OF HEALTH, LONDON, as to its efficacy in Cholera.

1st Stage, or Premonitory.—In this stage the remedy acts as a *charm*, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging.—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse.—*In all cases restoring the Pulse.* So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

From DR. THOMAS SANDIFORD, Passage West, Cork.

I will thank you to send me a further supply of Chlorodyne. It is the most efficacious remedy I ever used, affording relief in violent attacks of Spasms within a minute after being taken. One patient in particular, who has suffered for years with periodical attacks of Spasms of a most painful nature, and unable to obtain relief from other remedies, such as opium, &c., finds nothing so prompt and efficacious as Chlorodyne.

From W. VESALIUS PETTIGREW, M.D., formerly Lecturer at St. George's Hospital, London.

I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhœa, and other diseases, and am perfectly satisfied with the results.

From SYMES & Co., Pharmaceutical Chemists, Medical Hall, Simla.—*January* 5, 1880.

To J. T. DAVENPORT, Esq., 33, Great Russell Street, Bloomsbury, London.

DEAR SIR,—Have the goodness to furnish us with your best quotations for Dr. J. Collis Browne's Chlorodyne, as, being large buyers, we would much prefer doing business with you direct than through the wholesale houses. We embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike. We are, Sir, faithfully yours,

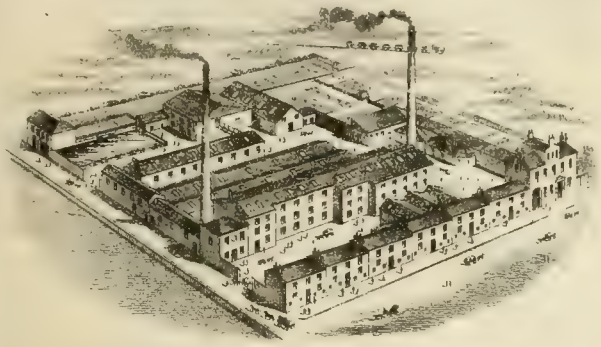
SYMES & CO.,

Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

From J. M'GRIGOR CROFT, M.D., M.R.C.P., London, late Staff-Surgeon to H.M.F.

November 26, 1859.

SIR,—After prescribing Dr. J. Collis Browne's Chlorodyne for the last three years, in severe cases of Neuralgia and Tic-Douloureux, I feel that I am in a position to testify to its valuable effects. Really, in some cases it acted as a charm, when all other means had failed. Without being asked for this report, I must come forward and state my candid opinion that it is a most valuable medicine, and I have recommended several chemists in this neighbourhood not to be without it for prescriptions.



From JNO. E. GOULSTONE, M.D., late Principal Surgeon to the Steam Ship *Great Eastern*.

I can confidently state that Chlorodyne is an admirable Sedative and Anti-spasmodic, having used it in Neuralgia, Hysteria, Asthma, and Consumption, with remarkably favourable results. It relieved a fit of Asthma in four minutes, where the patient had suffered eleven years in a most distressing manner, no previous remedy having had so immediate and beneficial an effect.

From DR. B. J. BOULTON & Co., Horncastle.

We have made pretty extensive use of Chlorodyne in our practice lately, and look upon it as an excellent direct Sedative and Anti-spasmodic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and it seems to possess this great advantage over all other Sedatives, that it leaves no unpleasant after-effects.

THE TWENTY-FOURTH EDITION OF

SLATER'S ROYAL NATIONAL COMMERCIAL

DIRECTORY OF LANCASHIRE

And the Manufacturing Districts around Manchester,

FOR 1890.

PRICE (in One Volume) - - £2 10. 0.

Opinions of the Press of the last Edition.

From the "MANCHESTER GUARDIAN," Nov. 26, 1886.

SLATER'S LANCASHIRE DIRECTORY.—In the new issue of "Slater's Royal National Commercial Directory of Lancashire" the editor has not introduced any novel features, and the general characteristics of the work are so well known that detailed description is needless. The publishers have spared no pains to make the work useful, and if in such a compilation some errors may be detected by a careful scrutiny, they are but small in comparison with the enormous bulk and utility of the information set forth. Manchester and Liverpool are treated separately, and after the special directories of these two cities, particulars of the rest of the Lancashire towns are given in alphabetical order, and are followed by those Cheshire and Derbyshire places belonging to the manufacturing district of which our city is the centre. There are maps of Manchester and Liverpool, and of the County of Lancaster.

From the "MANCHESTER EXAMINER AND TIMES," Nov. 27, 1886.

SLATER'S DIRECTORY OF LANCASHIRE.—Mr. Isaac Slater, of this city, has issued his Directory of Lancashire for 1887. The directory includes not only Lancashire but a large number of towns in Cheshire and Derbyshire, which are added to make the work exhaustive as a guide to the manufacturing districts having a connection with this city. Careful arrangement, accuracy of detail, a clear style of indexing, practical maps and plans make the present work complete in every way. It should be at the right hand of every commercial man, and may be implicitly trusted.

From the "MANCHESTER COURIER," Nov. 30, 1886.

SLATER'S DIRECTORY OF LANCASHIRE.—This work, the edition of which for 1887 has just been published, is a recognised institution. It has now attained the 91st anniversary of its establishment, and during that long period has maintained a high character for correctness and completeness. "Slater's Directory" has grown with the growth of the county, and it has now become a tome of mighty dimensions. It is a most elaborate work of reference, full of just that kind of information which commercial men and the inhabitants generally require; indexed, and otherwise indicated, so as to render reference simple and easy. To the uninitiated, it cannot fail to be a source of wonderment how so vast a work could be accomplished between the time of the last issue and the present. There are alphabetical lists of persons, streets, trades and professions in the cities, towns, and villages of Lancashire; and there are also similar lists in connection with towns in Cheshire, Derbyshire, &c., adjacent to the County Palatine. There are also interesting historical accounts of the various towns and districts; a mass of intelligence specially useful to commercial and professional men; plans of Manchester and Liverpool, and a map of Lancashire, and it would be difficult, if not impossible, to suggest any improvement to this popular and valuable directory.
